ABOUT TELREX

We've been in telecommunications and technology for more than twenty years.

Telrex opened its doors as Telephone Wreckers in 1999 and has since grown from just serving the local area to the entire country by providing great quality telephone systems at every price point.

Our head office team and warehouse is based in Loganholme, just south of Brisbane, where we sell directly to suppliers and the public from our showroom. Our Melbourne Telrex office is based in Keilor Park.

Our supply network and partnerships encompass the whole of Australia, with connections in Sydney, Brisbane, Melbourne, Hobart, Darwin, Perth and Adelaide.

With over four thousand products online and in store, we have everything from headsets and data cabinets to cables and sockets. With great brands like Coms in a Box, Plantronics, Jabra and more, all of our products are excellent quality at even better prices.

We always offer customised products and packages — no two are alike.

At Telrex, we get that every business is different and need a customised phone system solution. In order to provide the best system for each situation, we have partnerships with the most popular phone system brands such as New NEC and Refurbished NEC and LG Ericsson. We can assist you in finding the right system, whether it be new or second hand and have a strong emphasis on after sale service and care.

By recycling telephones we are also able to keep our environmental focus while supplying our customers with a wide range of bands and products. We believe that second hand doesn't mean second rate, so all of our work has a minimum of a 90 day warranty so that our customer's satisfaction is guaranteed.

Our relationship with our suppliers and customers is second to none. We are one of the top authorised Plantronics dealers within Australia and have a wide range of headsets available to suits every office environment and personal preference. With Bluetooth and wireless headsets as well as standard wired headsets and replacement parts we are able to assist our customers in finding the perfect headset.

If you need assistance with any of our products or services, don't hesitate to contact us. Give us a call on 1300 665 970 or send us an e-mail, we are always happy to help out in any way possible - no matter how big or small.

COMPATIBILITY

MICROSOFT TEAMS

These headsets are specifically designed or certified to work seamlessly with Microsoft Teams. They may have dedicated buttons for call controls, integration with Teams features, and optimized audio performance for the platform.

UNIFIED COMMUNICATIONS

UC-compatible headsets are designed to work with a broad range of Unified Communications platforms such as Cisco Webex, Avaya, Zoom, and more. They offer compatibility with multiple UC applications and often have features like call management buttons and wideband audio support.

GOOGLE MEET COMPATIBLE

These headsets are tailored to work well with Google Meet, Google's video conferencing platform. They have optimised audio quality for Meet, integration with Meet features, and compatibility with Google Workspace.

HOW NOISY IS YOUR WORK ENVIRONMENT

LOW NOISE LEVEL

Omni-directional microphones pick up sound from any direction and block ambient and surround noise. Fine for the traditional, low-noise office.

AVERAGE NOISE LEVEL

Noise cancelling microphones and a mono speaker reduce unwanted background noise while ensuring you're still aware of your surroundings. Great for use in noiser, open office environments.

HIGN NOISE LEVEL

Noise/ultra noise cancellation micro-phones combined with duo speakers filter aggressive noise and can block the sound of someone sitting right beside you. Perfect for noisy, distracting environments.

WORKS WITH YOUR PHONE OR PLATFORM.

Jabra headsets and speakerphones work out of the box with over 10,000 traditional desk phones. They are future-proof and compatible with all softphone and web clients, from Microsoft Teams to Mitel.

Providing your staff with optimized and trusted devices that work seamlessly with your UC platform is key to productivity, audio quality and having fewer IT issues. Jabra has tested devices with a long list of platforms, and offers Microsoft Teams certified variants from our wide range of headsets and speakerphones.

EVOLVE 2 85

ENGINEERED TO KEEP YOU FOCUSED.

We set out to create instant quiet, anywhere. The result is a world-class professional headset with cutting-edge digital hybrid Active Noise-Cancellation (ANC), powered by our most advanced digital chipset ever and designed for incredible noise isolation; just put it on for instant immersion in your thoughts.

	FEATURES	BENEFITS
Connectivity	Computer	Jabra Link 380 Bluetooth® adapter with USB-A or USB-C variant. Up to 30m/100ft wireless range to your computer, with significantly enhanced coverage and fewer dropouts
	Dual Bluetooth connectivity	Connect two Bluetooth enabled devices at the same time, including mobile device and computer
	Certifications	Leading UC vendors
	Multiple device pairing	Pair up to 8 devices
Audio	Microphone	10-microphone technology for significantly enhanced call experience
	Active Noise Cancellation (ANC)	Digital hybrid Active Noise Cancellation (ANC) for even deeper concentration
	Noise-isolating design	Instant noise isolation for improved focus in noisy surroundings
	Software integration	Additional features available via Jabra Sound+ app, Jabra Xpress and Jabra Direct
	Voice Assistant access	Quickly access your voice assistant with just the touch of a button
	Speakers	Powerful 40mm speakers and AAC codec deliver richer sound for a more immersive audio experience
Ease of use	Rechargeable battery	Up to 37 hours battery life
	Busylight	360° busylight on both earcups is visible from all angles, acting as a do-not-disturb sign and protecting your focus
	Optional charging stand	Easy charging and docking with the optional charging stand
	Boom arm mute and answer call	Move boom arm up to mute or down to unmute or answer call
	Discrete hidden boom arm	Hide-away boom arm gives the headset a more discrete look when on the go
	Smart Sensor	On-ear detection recognizes when the headset is in use, allowing autoplaying and pausing of audio and answering and muting calls
	Call management	Answer/reject calls; increase/decrease speaker volume; mute
Variants	UC and MS variants Colour variants	Choose from UC or MS Teams variants Available in black and beige

VIDEO CONFERENCING

PanaCast

8100-119

Engineered to be the world's first intelligent 180° Panoramic-4K plug-and-play video solution. Jabra PanaCast works with all leading video and audio conferencing solutions and is certified for use with Microsoft Teams & Zoom. Be confident that your team can connect, whatever equipment they're using.

- Inclusive meetings
- Intelligent video technology
- Whiteboard sharing
- Instant collaboration
- Versatile compatibility

PanaCast 20

8300-119

Engineered for intelligent AI-enabled personal video conferencing. When you work flexibly, you can be joining meetings from anywhere. This clever little camera is perfectly portable, with a compact design that easily slots over the top of any screen, an integrated, foldable mounting clip and a protective carry case. So you're only ever seconds away from seamless, intelligent, high-quality video collaboration. From the café to the kitchen table. Enjoy great video meetings anywhere.

- AI-powered 4K Ultra-HD video
- Intelligent Zoom
- Intelligent Lighting Optimisation
- Intuitive Picture-in-Picture mode

PanaCast 50

8200-235

Engineered to be the first new-normal-ready intelligent video bar. With our industry-leading professional audio, advanced and innovative 180° video technology and a range of unique intelligence-driven features, PanaCast 50 gives you the power to put safe, socially distanced meetings back on the table – whatever your 'new normal' looks like.

- Professional-grade audio
- 180° Panoramic-4K video
- Virtual Director for immersive meetings
- Real-time whiteboard content camera stream

SPEAK2 RANGE

THE NEXT GENERATION OF PROFESSIONAL SPEAKERPHONES

Engineered for hybrid working

Building on what you love about Speak, with Speak2 you can expect a collaboration experience that's better in every single way.

You'll get Super-wideband audio for dramatically more powerful sound, 4 state-of-the-art beamforming microphones, advanced Full Duplex audio, a unique Microphone Quality Indicator and Voice Level Normalization technology.

The sleek new premium design is more portable and durable than ever before, with a longer battery life and it's made from sustainable materials so it's better for the planet.

Enjoy more seamless, equitable and productive hybrid working.

It's time to speak up.

Technology engineered for hybrid working

- Microphone Quality Indicator shows you how well your voice is being picked up
- Voice Level Normalization equalises all voice to the same volume level

Meeting equity: Inclusion & natural conversations

- Flexibility with built-in USB-A and USB-C connectivity
- 4 cutting-edge mics with exceptional noise cancellation

Advanced Audio Technology

- Full Duplex allows both ends to speak and be heard at the same time
- Super-wideband audio for richer sound

SOFTWARE AND APPS

Jabra offers a range of software and Apps that help you make the best of our products.

JABRA DIRECT

FOR WINDOWS AND MAC OS

Personalize your device with smart, secure and free software

Jabra Direct is a software solution that enables you to personalize and optimize the use of your Jabra USB solution in a user friendly desktop interface offering complete integration of your softphone and headset.

Jabra Direct has two core functions

- Readiness status - Overview of all active USB-device and which softphones they are connected to
- Personalize the device - Adjust settings, control firmware updates and remote call control

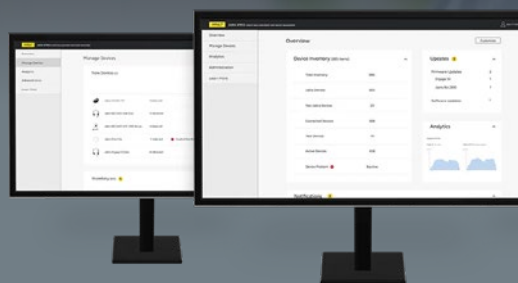

Secure and free software

Jabra Direct is free of charge and is compliant with the SOC II Type 1 data protection standard*

How to get Jabra Direct

Jabra Direct can be downloaded from:
www.jabra.com/direct

Jabra Direct can be deployed to individual users via Jabra Xpress.

JABRA XPRESS

FOR WINDOWS AND MAC OS

Upgrade business productivity with smart, secure and free device management software

Jabra Xpress 2.0 is a software solution designed for IT professionals to 100% remotely manage Jabra audio and video solutions with a set of smart tools.

Boost business productivity with always updated devices

- Deployment - Jabra Xpress 2.0 simplifies IT management tasks and accelerates device adoption with several deployment options.
- Smart asset management - Jabra Xpress 2.0 gives IT professionals greater control and helps IT administrators gain higher efficiency with the Jabra device overview.
- Agile maintenance - Jabra Xpress 2.0 enhances user satisfaction and productivity, and maximizes headset ROI.
- With Jabra Xpress 2.0 IT can control Jabra Direct 2.0, which enable users with a large degree of personalization of their devices.

How to get Jabra Xpress 2.0

Jabra Xpress 2.0 can be accessed from:
